

## THE ATTRIBUTES SERIES

### GOD IS... Part I

Reference: miscellaneous Scripture  
Pastor Larry Webb

---

The beginning objective this series on divine attributes is to demonstrate that God exists: i.e. **God is!**

There are five common societal responses to the question of God's existence:

ONE... The first response is that God \_\_\_\_\_ exist: i.e. **atheism.**

The Greek word for atheist is "*atheos*" and literally means "God is \_\_\_\_\_" The atheist is someone that argues God doesn't exist.

References: **Psalm 14:1** and **Psalm 53:1** (see screen)

TWO... The second response is we \_\_\_\_\_ if God exists: i.e. **agnosticism.**

The word agnostic comes from two Greek words that means literally "*no knowledge* or *without knowledge*" The agnostic is someone who claims he is uncertain about the existence of God. There are two categories of agnosticism:

- **soft** (or weak) **agnosticism** states we \_\_\_\_\_ know if God exists
- **hard** (or strong) **agnosticism** states we \_\_\_\_\_ know if God exists

THREE...The third response is that the impersonal universe itself \_\_\_\_\_: i.e. **pantheism.**

FOUR...The fourth response is there are multiple \_\_\_\_\_ and \_\_\_\_\_: i.e. **polytheism**

FIVE...The fifth response is that a personal God \_\_\_\_\_: i.e. **theism.**

Definition: Deism teaches that God created the universe and then \_\_\_\_\_ to operate on its own according to the natural laws He had established.

**IMPORTANT:** Outside of Scripture God has revealed His existence to us through our human \_\_\_\_\_ and through His divine \_\_\_\_\_.  
Reference: **Romans 1:18-23** (see screen)
