

## THE ATTRIBUTES SERIES - Part IX

God is Omnificent  
Pastor Larry Webb

---

---

Theology is from the Greek word *theos* meaning God and the suffix *ology* from the Greek word *logos* meaning (in this context) discourse, theory, and reasoning. Theology is the \_\_\_\_\_ of \_\_\_\_\_.

The fact God is omnificent means that He has created all things. In simplistic language, this means \_\_\_\_\_.

Reference: **Genesis 1:1**, "*In the beginning God **created** the heavens and the earth.*"

Additional references: **Nehemiah 9:6; Psalm 33:6; Psalm 146:5-6; Psalm 148:1-5; Isaiah 44:24; Isaiah 45:18; Acts 4:24; Acts 14:15; Revelation 4:11** (see screen)

There are two basic categories of evolution:

- \_\_\_\_\_-evolution, meaning developmental changes inside of a particular species
- \_\_\_\_\_-evolution, meaning developmental changes from one species to another species

Four scientific reasons for Biblical creationism instead of macro-evolution:

ONE...the law of \_\_\_\_\_ - \_\_\_\_\_

**Definition:** The law of Bio-genesis states that all \_\_\_\_\_ comes from \_\_\_\_\_.

**Reference: Genesis 1:11** (see screen)

TWO...the second law of \_\_\_\_\_

**Definition:** Entropy is the degree of \_\_\_\_\_ or randomness in a system.

References: **Isaiah 51:6; Romans 7:21-25; Hebrews 1:10-12; 1 Peter 1:24-25**

THREE...the law of \_\_\_\_\_

**Genesis Creationism** is \_\_\_\_\_ x \_\_\_\_\_ x \_\_\_\_\_ = everything.

**Evolution** (macro) is \_\_\_\_\_ x matter x evolutionary factors (i.e. chance + mutation + selection + isolation + death + extremely long periods of time) = everything.

**Theistic Evolution** (macro) is \_\_\_\_\_ x matter x evolutionary factors (i.e. chance + mutation + selection + isolation + death + extremely long periods of time) = everything.

FOUR...the \_\_\_\_\_
